

Allyson Tucker
Trustee and Chair of
Investment Committee

Thank you for choosing Seattle Foundation as your partner in philanthropy. We know that you share our commitment to creating a region of shared prosperity, belonging, and justice. We appreciate your confidence in us to manage your assets in service of a greater goal: fostering a community where everyone can thrive. We are pleased to share these results from Q2 and we welcome any questions or feedback.

Market Conditions

Global-equity markets sold off during the second quarter with the S&P 500, MSCI EAFE and MSCI Emerging indices posting declines of 16%, 14.5%, and 11.5%, respectively. Equities and bonds had their worst first half of the year since the 1970s as fears of high inflation and the economic impact of changing central bank policies caused a significant shift in investor preferences.

Recent declines also reflect the process of unwinding the excessive valuations of recent years and led to indiscriminate selling in certain segments of the market due to a preference for near-term cashflows over those further in the distance. As the markets adjust to the new economic environment and volatility abates, we expect market pricing to become more discerning, which should benefit highly skilled managers who display discipline and patience.

The Seattle Foundation pools were designed to be resilient in the long term as complexity provides an advantage to patient, disciplined investors with in-depth knowledge of the fortunes of individual companies. This plus the Foundation's diversified strategy will likely be key contributors to overcoming what might at times be fierce headwinds from markets and the world at large.

Portfolios

The Balanced Pool is Seattle Foundation's primary investment pool and is actively managed to deliver returns at 5% plus CPI over a long-term horizon. It maintains a diversified portfolio that includes exposure to global equity markets, alternative investments, and more conservative asset classes such as US Fixed Income. Over the last 10 years, the Balanced Pool has gained 7.6% per annum. The Balanced Pool lost 5.5% in the first quarter and registered a 3.7% gain in the last 12 months. The second quarter was a challenging one due primarily to a broad based and deep sell-off across public equity markets globally.

In addition to our Balanced Pool, we offer other investment options to meet our fundholders' needs. Our Socially Responsible Pool, designed to meet ESG (Environmental, Social and Governance) requirements while also providing competitive economic returns, lost 11.3% for the quarter. Our Intermediate-Term Pool, designed to meet the expectations of donors with a grantmaking horizon in the two-to-seven-year range, lost 6.3%. The Foundation also manages a Short-Term pool for donors with very short grantmaking horizons. This pool is intended to preserve capital as best as possible; it was flat in the quarter. Lastly, the Foundation offers an Index pool, which is all passive, and a Growth Pool. These pools lost 11.6% and 12.0% in the quarter, respectively.

We are thankful for the opportunity to support you in creating powerful, rewarding philanthropy to make King County a stronger, more vibrant community for all. We welcome your questions and comments about Seattle Foundation.

Sincerely,

Allyson Tucker
Seattle Foundation Trustee and
Chair of Investment Committee

Seattle Foundation returns are net of investment management fees. Returns are not net of fees for investment consulting and custodial services. Individual fund performance may vary due to the timing of contributions and grants. The Balanced Pool has a number of private asset investments that periodically provide valuation updates too late to be reflected in this report.

Seattle Foundation Philanthropic Partners may request a change to their investment pools no more than once in a 12-month period during two windows annually. The current window closes August 31, 2022 and transfers will occur no later than October 31, 2022. Please note endowed funds are solely invested in the Balanced Pool. If you have any questions, please contact your Philanthropic Advisor or our Philanthropic Services team at ps@seattlefoundation.org or 206.515.2111.

Investment Philosophy and Strategy

Effective stewardship of assets is key to Seattle Foundation's ability to fulfill its mission of igniting powerful and rewarding philanthropy to make Greater Seattle a stronger, more vibrant community for all. Reflecting the infinite life of a community foundation, we take a long-term approach to our investment management to maximize the philanthropic resources available over time to meet community needs. Our long-term return objective is to generate annual returns of 5% plus inflation over a full market cycle of 10+ years through prudent management of a diversified portfolio.

We are oriented towards a total-return approach to investing, which aims to blend income and capital appreciation to address the challenge of preserving long-term purchasing power while dealing with unanticipated inflation. This approach to investment management is consistent with the Uniform Prudent Management of Institutional Funds Act (UPMIFA), as implemented by Washington State.

As a prudent steward, the Foundation has the following main priorities for our Balanced Pool: **maximize total return and protect principal**. In addition to the Balanced Pool, the Foundation offers five other pools for philanthropists with different investment interests (Socially Responsible Investment and Index), risk profiles (Growth) and giving horizons (Intermediate and Short-Term). Outside management for funds larger than \$750,000 is also available.
