Scholarship Funds

For philanthropists interested in increasing equity and opportunity by investing in education.

SCHOLARSHIPS CREATE GREATER OPPORTUNITY FOR STUDENTS TO ACHIEVE THEIR EDUCATIONAL AND CAREER GOALS.

When you care about education, you have a unique opportunity to create lasting impact. What better way to ensure the future of Greater Seattle than by investing in the education of a worthy student?

There are two great ways to partner with Seattle Foundation through scholarship funds. You may choose to contribute to an existing, targeted scholarship fund managed by us. Or, if you are dedicated to an area of study or want to benefit a specific community or group of students, you

may consider a customized scholarship fund, which allows you to identify your own areas of focus.

Some philanthropists prefer a hands-off approach, confident in Seattle Foundation's thorough process and diligent oversight. Others choose to be more involved by participating as a member of a scholarship review committee. All philanthropists and their families enjoy hearing the stories of the students helped by their support. We're here to unite your passion for education with the opportunity to create a lasting impact on students' lives.

SEATTLE
FOUNDATION

the heart & science of philanthropy

For customized scholarship funds, you name your scholarship and, with the advice and guidance of Seattle Foundation staff, outline the specific eligibility and selection criteria. You can designate the amount to be awarded, and whether the scholarships will be single-year or multi-year awards.

Seattle Foundation generally provides donors more flexibility in establishing eligibility criteria than individual universities. In addition, a scholarship administered by Seattle Foundation, independent of a specific university, broadens the applicant pool and the potential impact of the scholarship.

SCHOLARSHIP FUND BENEFITS

Supporting scholarships through Seattle Foundation can be a very rewarding yet simple way to create greater equity and opportunity. You create the opportunity for students to further their education and we ensure the recipients match your interests by geography, background, area of study, financial need and more.
